(Around 1921, J.T. Gray incorporated the Gregory Branch Coal Co., operating the small mine called "Bertha Mine", at Gray, KY. [It was common practice, during this era of mining in KY., that coal firms referred to individual smaller mines, adits, portal, or operations by a personal, often female name]. ICS records show this F Series scrip was ordered in Nov., 1924, then shipped to Hima, KY., where it was most likely used at their Clay County, larger rail mine of Gregory Branch Coal Co. This being verified by Kentucky Mine Reports & L&N records. It should be noted the offices remained at Gray, KY. The editors follow listing scrip where the mine was located unless the office location is on the scrip.)
