Rev. 3.0
Jan. 2024

This will be the last revision for about 6 months. I know that there has to be more errors and omissions, but this is as accurate as I can make it today. I hope that people will be using this, and hopefully noticing things that could be changed. Please let me know about corrections and what you think of the revision so far. I hope to have an index when I update this next time.
