WHITING PRES** (5 in fancy green background) **TC-717906; Mining; MiscOther** *OAKDALE IS NOW NAMED ELVERTON According to Snider Roberts, archivest from the Roane County Archives, the company was formed in 1872 when several people, lead by Thomas Whiting, purchased 139 acres to form the Little Emory Iron Works. The company changed names several times and eventually became Oakdale Iron Co. before going bankrupt in 1874. The town name was subsequently changed from Oakdale to Elverton. The scrip is not dated. Some of the notes are overprinted with a red logo that resembles a gear with the company initials. From the court records, the scrip appears to be 1872-4 vintage.*
